Author Index for Volume 20

A

Alexander, M., 164, 229
Allen-Bridson, K., 201
Andris, D. A., 233

B

Baker, S., 50
Bentley, M. B., S33
Bertolone, K., 136
Birmingham, J. J., 258
Boger, J. E., 148
Bogner, M. S., 311
Brooke, P. S., S45
Brown, S. L., 41, 311

C

Cato, Y., 130
Chrystal, C., 78
Cohen, M. L., S7
Conrad, D., 230
Cook, L. S., 5, 15
Coulter, K., 89
Craig, C. P., 201

D

Deady, A., 245
DeLuca, S. T., 148
Dietrick, C. L., 141
Duck, S., 121
Dugger, B., 95, 101, 287
Dunagan, C., 230

F

Fanning, S., S5
Friedman, M. M., 179

G

Gorman, D., 245
Grimes, B. G., S40

K

Krzywda, E. A., 233
Kupenskyn, D. T., 23

J

Jager, J., S33

M

Madeo, M., 253
Martin, C., 253
Miller, K. D., 141
Morrison, A. E., 41

N

Nobbs, A., 253

O

Oeltjen, A. M., 305
Olmsted, R. N., 201

P

Pahl, J., 230
Parmentier, C. M., 41, 311
Pugliese, G., S11

R

Raife, T. J., 238
Rollins, C. J., 299
Russ, P., 50

S

Santrach, P. J., 305
Seignemartin, R. K., 29
Smith, S. A., 193

T

Taylor, J. B., 311
Tereskery, P. M., S25
Thomas, C. S., 188
Thomley, A. M., 148
Thomson, D. J., 23
Treston-Aurand, J., 201

V

Vanek, V. W., 23
Vershave, K. K., 148
Vishnuvajjala, R. L., 41

W

Watkins, D. F., 148
West, K. H., S7
Wheeler, C., 169
Woo, E. K., 41
Wood, D., 280

Y

Yucha, C. B., 50

Subject Index for Volume 20

A

Acute extravascular hemolysis, transfusion-related, 5
Acute intravascular hemolysis, transfusion-related, 5
Adult respiratory distress syndrome (ARDS), transfusion-related, 15
Adverse incidents, with patient-controlled analgesia pumps, 311
AIDS. *See* Human immunodeficiency virus (HIV) infection
Alexander, Mary, Presidential Report of, 164
Allergic reaction
  to Aquavene-based catheters, 23
  transfusion-related, 5
Ambulatory setting. *See also* Home infusion therapy
  continuous vesicant chemotherapy in, 78
Anaphylactic transfusion reaction, 5
Antimicrobial drug resistance, 101
Aplastic anemia, 317
Aquavene-based catheters, hypersensitivity-like reactions to, 23
Assistive personnel, unlicensed, intravenous therapy by, 73
Autologous transfusion, technique of, 305

B

Biotherapy, pediatric, 136
Blood transfusion. *See under* Transfusion
Bone marrow transplantation
  for aplastic anemia, 317
  in children, 136

C

Cancer
  chemotherapy for. *See* Chemotherapy
  pediatric, treatment trends in, 136

Cardiac disease, home infusion of milrinone in, 148
Catheter(s)
aquavene-based, hypersensitivity-like reactions to, 23
dialysis, management of, 230
indwelling peripheral, for 3-5 day outpatient administration of chemotherapy, 62 (errata)
midline and midclavicular, INS position paper on, 175
peripheral intravenous
securement techniques for, 280
transparent polyurethane dressings for, vs. dry gauze dressings, 253
peripherally inserted central
experience with at university medical center, 141
INS position paper on, 172
Catheter infection. *See also* Infection
central venous catheter dressings and, 201
Catheter pinch-off syndrome, 233
Catheter stylet, infection from
risk factors for, S11
risk reduction for, S33
CENTERMARK PICC catheter, hypersensitivity-like reactions to, 23
Central catheter
dressings for, infection rates and, 201
peripherally inserted
experience with at university medical center, 141
INS position paper on, 172
Chemotherapy
3-5 day outpatient administration of, indwelling peripheral catheter for, 62 (errata)
continuous vesicant, in ambulatory setting, 78
pediatric, 136
Children
cancer in, treatment trends in, 136
intravenous conscious sedation in, 245
Circulatory overload, transfusion-related, 15
Citrate toxicity, transfusion-related, 15
Clinical pathways, multidisciplinary, 29
Cold agglutinins hemolysis, 5
Conscious sedation, intravenous, in children, 245
Continuous vesicant chemotherapy, in ambulatory setting, 78

D

Dehydration, in terminal illness, 193
Delayed hemolysis, transfusion-related, 5
Dialysis, intradialytic parenteral nutrition in, 130
Dialysis catheter, management of, 230
Disease transmission. *See* Infection
Dopamine, peripheral infusion of, infiltration risk in, 95
Doxorubicin, continuous infusion of, in ambulatory setting, 78
Dressings, transparent polyurethane
for central venous catheters, infection rates and, 201
for peripheral intravenous catheters vs. dry gauze dressings, 253
tape vs. StatLock IV/PICC securement of, 253
Drug resistance, antimicrobial, 101

E

Errata, indwelling peripheral catheter for 3-5 day outpatient administration of chemotherapy, 62

F

Fluid management, in terminal illness, 193

G

Gauze dressings vs. transparent polyurethane dressings, for peripheral intravenous catheters, 253
Graft-versus-host disease, 5

H

Health care workers, needlestick injuries in. *See* Needlestick injuries
Heart failure, advanced, home infusion of milrinone in, 148
Hemodialysis, intradialytic parenteral nutrition in, 130
Hemodialysis catheters, management of, 230
Hemolysis
acute extravascular, 5
acute intravascular, 5
cold agglutinins, 5
delayed, 5
nonimmune, 15
Hemolytic transfusion reactions, 5
Home infusion therapy
continuous vesicant, 78
management of infectious waste in, 188
with milrinone, for advanced heart failure, 148
nurse's transition to, 89
patient selection for, 258
Home transfusion therapy, risk management for, 179
Hospital to home care transition, 89
Human immunodeficiency virus (HIV) infection, from needlestick injuries
legal issues in, S11
risk factors for, S25
risk reduction for, S33
Hydration, in terminal illness, 193
Hyperalimentation. *See* Parenteral nutrition
Hyperkalemia, transfusion-related, 15
Hypersensitivity
to Aquavene-based catheters, 23
transfusion-related, 5
Hypokalemia, transfusion-related, 15
Hypothermia, transfusion-related, 15

I

Immunosuppressive therapy, for aplastic anemia, 317
Indwelling peripheral catheter, for 3-5 day outpatient administration of chemotherapy, 62 (errata)
Infant, intravenous therapy in, 121
Infection
catheter, central venous catheter dressings and, 201
needlestick injuries and. *See* Needlestick injuries
risk reduction for, for intravascular access device insertion, S33
transfusion-acquired, 15
Infection control
in home care, 188
Standard Precautions for, S7
Infectious waste, management of, in home care, 188
Infiltration, intravenous, Venoscope detection of, 50
Infusion pumps, adverse events involving, 41
Intradialytic parenteral nutrition, 130

Intravascular access devices, insertion of, infection risk reduction for, S33
Intravenous catheter stylet, infection from
risk factors for, S11
risk reduction for, S33
Intravenous conscious sedation, in children, 245
Intravenous infiltration, Venoscope detection of, 50
Intravenous nurse specialist, role of in evolving healthcare environment, 119
Intravenous Nurses Society (INS)
1996 Annual Report of, 213
position papers of, 73, 119, 172, 175
Intravenous therapy
delivery of
by licensed practical nurse, 75
by licensed vocational nurse, 75
by unlicensed assistive personnel, 73
neonatal, 121

L

LANDMARK Midline Catheter, hypersensitivity-like reactions to, 23
Legal issues
in needlestick injuries, S25
involving defective design and negligent use, S40
Occupational Health and Safety Administration (OSHA) and, S45
Leukocyte-mediated transfusion reactions, 238
Licensed practical nurse, in intravenous therapy, 75
Licensed vocational nurse, in intravenous therapy, 75

M

Managed care, intravenous nurse specialist's role in, 119
Midclavicular catheters, INS position paper on, 175
Midline catheters, INS position paper on, 175
Milrinone, for advanced heart failure, home infusion of, 148
Multidisciplinary clinical pathways, 29
Multidisciplinary outcome indicators, 29

N

Needlestick injuries
during intravascular access device insertion
risk factors for, S11
risk reduction for, S33
legal aspects of, S25
involving defective design and negligent use, S40
Neonatal intravenous therapy, 121
Noncardiogenic pulmonary edema, transfusion-related, 5
Nonhemolytic febrile transfusion reactions, 5
Nosocomial infections, from vascular access devices, risk reduction for, S33
Nurse
intravenous specialist, role of in evolving healthcare environment, 119
licensed practical, in intravenous therapy, 75
licensed vocational, in intravenous therapy, 75
needlestick injuries in. *See* Needlestick injuries
registered
in product purchase, 69, 71
in vascular access device selection, 71
Nursing competency, importance of, 287
Nutrition, parenteral
intradialytic, 130
total nutrient admixtures in, stability of, 299

O

Occupational Health and Safety Administration (OSHA), S45
Occupational injuries. *See* Needlestick injuries
Outcome indicators, multidisciplinary, 29

P

Parenteral nutrition
intradialytic, 130
total nutrient admixtures in, stability of, 299
Patient-controlled analgesia pumps, use errors with, 311
Pediatric cancer, treatment trends in, 136
Peripheral indwelling catheter, for 3-5 day outpatient administration of chemotherapy, 62 (errata)
Peripheral infusion, dopamine, infiltration risk with, 95
Peripheral intravenous catheters
short, securement techniques for, 280
transparent polyurethane dressings for, vs. dry gauze dressings, 253
Peripherally inserted central catheters
experience with at university medical center, 141
INS position paper on, 172
Peritoneal dialysis catheters, management of, 230
Polyurethane dressings
central venous catheter, infection rates and, 201
peripheral intravenous catheter vs. dry gauze dressings, 201
tape vs. StatLock IV/PICC securement for, 201
Presidential Address, by Corinne Wheeler, 169
Presidential Report, by Mary Alexander, 164
Product purchase, nurse's role in, 69, 71
Pulmonary edema, noncardiogenic, transfusion-related, 5

R

Radiation therapy, pediatric, 136
Registered nurse. *See also* Nurse
intravenous specialist, role of in evolving healthcare environment, 119
role of in product purchase, 69, 71
in vascular access device selection, 71
Risk management
in home-based transfusion therapy, 179
for intravascular access device insertion, S33, S11

S

Sedation, intravenous conscious, in children, 245
Sepsis, transfusion-related, 15
Short peripheral intravenous catheters, securement techniques for, 280
Standard Precautions, S7
StatLock IV/PICC, for securement of short peripheral intravenous catheter, vs. tape, 280
Stylet, catheter, infection from
risk factors for, S11
risk reduction for, S33
Surgery, cancer, in children, 136

T

Terminal illness, hydration in, 193
Total nutrient admixtures, stability of, 299
Total parenteral nutrition (TPN)
  intradialytic, 130
  total nutrient admixtures in, stability of, 299
Transfusion
  autologous, technique of, 305
  home-based, risk management for, 179
  infection transmission via, 15
Transfusion reactions
  immune, 5
  leukocyte-mediated, 238
  nonimmune, 15
Transparent polyurethane dressings
  for central venous catheters, infection rates and, 201
  for peripheral catheters, tape vs. StatLock IV/PICC securement of, 280
  for peripheral intravenous catheters, vs. dry gauze dressings, 201
Transplant, bone marrow
  for aplastic anemia, 317
  in children, 136

U

Unlicensed assistive personnel, intravenous therapy by, 73
Use errors, with patient-controlled analgesia pumps, 311

V

Vascular access devices
  infection from, risk reduction for, S33
  needlestick injuries and. *See* Needlestick injuries
Venoscope, for IV infiltration detection, 50
Vincristine, continuous infusion of, in ambulatory setting, 78

W

Wheeler, Corinne, Presidential Address of, 169
